The following commendation is from a agent to ing at Trenton, Tennessee. Theorem, Gibson County, Team, Nov. 7, 1848.

Messes, Scovin & Mean—Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some for five hundred dollars a year. She was afflicted for some time with an enlargement of the splexu, which gave her agrest deal of pain. The swelling and pain had extended up nearly to the arm-pit, and occasionally she could scarcely hreathe. She was confined for a considerable time, during which she was attended by some of our best physicians, but they gave ber no relief. She procured a box of the Hebrew Plaster, and it relieved her almost tunidiately, and now she keeps a suprly of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.

Respectfully, yours, &c.

JENSE J. WELLS.

Beware of counterfeits and base imitations. Dealers and purchasers generally are cautioned against buying of any but our regular agents, otherwise they will be imposed upon with a worthless article, as many base counterfeits of this Plaster are in existence.

REAT CURE FOR DYSPETSIA!—ANOTHER SCIENTIFIC WORLEA!

DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, OR CASTRIC JULES. PREPARED from Rennet, or the Fourt's Sto, such of the Ox, after the directions of Baron Lieug, the great Phy-siclogical Chemist, by J. S. Hought a, M. D., rhiladelphia,

Penn.
This is a truly wonderful ready for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

11r. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, 19ge 25, states the same great fact, and describes the method of puparation. There are few higher authorities than Dr. Priera.

11r. Combe, in his valuable writings on the "r'aysiology of Digustion," observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and all-prevailing came of Dyspepsia;" and he states that "a distinguished professor of mesheine in London, who was severely afflicted with this complaint, finding every thing else to fall, but recourse to the Gastrie Juice, obtained from the stomachs of living animals, which proved completely successful."

with this complaint, finding every thing else to fail, had recourse to the Gastrie Junce, obtained from the stormacks of
living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable
Diet," says: "It is a remarkable fact in Physiology, that the
stormelis of animals, unnearated in water, impart to the fluid
the property of dissolving various articles of food, and of elfecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemostry of Man," (Lee &
Blanchard, Philadelphia, 1846, pp. 221-2, ways: "The discovery of Pepsin forms a new era in the chemical history of
digestion. From recent experiments we know that food is
dissolved as rapidly in an artificial digestive fluid, prepared
from Pepsin, as it is in the natural Gastric Juice itself.

Professor Dunglison, of the Jefferson College, Philadelphia,
in his great work on Human Physiology, devotes more than
lifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained
from the living human stomach, and from animals, are well
known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestion."

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Book of
Chemistry, page 186, ways: "It has been a question whether
artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is full of evidence similar to the above, re-specting the remarkable digestive power of Pepsia, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in artificial digestion, or as a remedy for diseases of the stomach, and deficient secre-tion of the Gastric Juice.

All modern works on Chemistry, Materia Medica and Phy-sichers and all good Medical Pictuaries, describe the charsiology, and all good Medical Dictionaries, describe the char-acter and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggestitself to the mind.

As a Dyspepsia Curer, Dr. Houghton's Pepsin has produced the most marvellous effects, in cases of Beblity, Emacation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cures, in Phil-adelphia, New York and Boston alone. These were nearly all rate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great nervous anticlote, and particularly useful for tendency to Bilions Disorder, Laver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of quinine and Mercury and other drugs upon the digestive organs, after a long sickness. Also, for excess in eating, and

No matter how bad it may be, it gives instant relief! A single dose removes all the unpleasant sympstant relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Parity of blood and vigor of body follow at once. It is particularly excellent in cases of Nausea. Vomiting, Cramps, Soreness of the Fit of the Stomach, Distress after Eating, Low, Cold State of the Blood, Heaviness, Louness of Spirits, Despondency, Emaciation, Weakness, Tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines throughout the United States. It is prepared in powder and in fluid form, and in prescription vials for the use of physicians.
